

“ I enjoy working at Personal Care Physical Therapy because we focus on the whole person. It is important to address a client’s symptoms but treatment is most effective when you also address contributing factors in the client’s home and work environments. ”

– Deborah Bodin

Deborah Bodin, PHYSICAL THERAPIST

Qualifications

Deborah graduated from Northern Arizona University’s Masters Physical Therapy program. She has 14 years of clinical experience with an emphasis on treating upper extremity overuse, pre and post-operative hand injuries, wound care, and general orthopedics. Deborah is proficient in the fabrication of custom hand splints and has a special interest in the relationship between posture and repetitive stress injuries.

What makes Personal Care Unique?

“We provide consistent quality care because our therapists are experienced and share our vision of not only helping clients move beyond their current injury but also giving them the tools they need to prevent future problems.”
